### The Feast Nosepiece is Quite a Feature.

---Wearers of eyeglasses who've examined and tried the Feast Nosepiece pronounce it perfect. It successfully answers the call for something definitely secure in nosepieces.

-One feature of the Feast Nosepiece that should and does recommend it at once is that it CAN'T SLIP OFF. It has much else to recommend

it; chiefly that it does away with wearing cordssaves the expense of breaking glasses and it does not mark the nose. Its simple construction makes it thoroughly pigienic. - The genuine bears the Feast name on the back.

-- There is something distinctly superior in the Feastfield Lens. You'll appreciate that if you see it.

Eyes

-We have so perfected this department that we can assure you an examination Examined of your eyes that will disclose their exact condition. This service is Free, and furthermore there is no obligation entailed to buy glasses should they be needed.
